# Specialist in Packaged Drinking Water Plant ( As per BIS norms )

Our specialisation comes in action when it comes to set up Packaged Drinking Water Plant. Our team knows every technical know-how of a ISI marked and BIS approved packaged drinking water plant. We customize the plant according to the production needs starting from 2000LPH and above. Till now we have installed many such plants under the brand FILTRO and all of them are successfully approved by BIS.
